WHAT DEMOCRACY
MUST OVERCOME

The following is from the pen of the conservative editor of the Lancaster, (Pa.) Examiner, who has been a leader in all reforms ever instituted in Pennsylvania politics and has fought boss rule all his life; it's the other side of the question:

On Saturday evening last we gave our own argument or reasons for our belief that Mr. Bryan cannot be elected. But there are many reasons than those we presented for our conclusion according as different minds look at the situation. The independent New York Times has given its reasons for belief in the election of Judge Taft that add much force to our own presentation of facts that we reproduce it as follows:

"Mr. Roosevelt in 1904 had a popular plurality of 2,545,515, and in the electoral college a majority of 196 votes. How does Mr. Bryan expect to overcome these imposing republican majorities this year. Why should any republican who voted for Mr. Roosevelt in 1904, vote for Mr. Bryan this year? Why should any independent democrat who has hitherto consistently opposed Mr. Bryan come to his support in 1908?"

"Will it be because of Mr. Bryan's advocacy of a fund to guarantee bank deposits? His plan is rejected by all those who speak with most authority upon banking. It was rejected at Denver by bankers themselves, the very men who have personal and financial motives more potent, even than those that actuate depositors for requiring assurances of the soundness of banks. Bankers are universal owners of shares in their own and other banks. Even in the worst cases of failure the depositors always get something. Stockholders get nothing at all until all other creditors are satisfied. If Mr. Bryan's plan would be a boon to depositors, it would be even in a more positive degree a boon to bank stockholders. They reject it, which is the best possible evidence of its chimerical character."

"Will republicans vote for Mr. Bryan because of his plan to curb the trusts? Governor Hughes ridiculed it. It is ridiculed by every man of business understanding. It would be a menace to the people themselves, and they know it."

"Has Mr. Bryan won support by his promises of tariff reform? Is any voter so ignorant as not to see that Mr. Bryan can do nothing with the tariff unless he has both a democratic house and a democratic senate? Mr. Taft's pledges that the tariff will be revised are in a way to be fulfilled. Mr. Bryan makes only empty promises."

"Will his endless talk about campaign contributions win him the confidence of republicans or of independent democrats? The campaign funds this year are too small to be worth thinking about them. They are not an issue."

"Upon what, then, does Mr. Bryan base his confidence that he and Mr. Kern will have a large majority of the popular vote and the majority of the electoral college? They can get these majorities only by reversing Mr. Roosevelt's tremendous popular plurality of two millions and a half, and his majority of 196 in the electoral college. Mr. Bryan and Mr. Kern can be elected, that is, only by securing the support of great numbers of republicans who voted for Mr. Roosevelt in 1904 and for Mr. McKinley in 1900. Can any body point out the issues or the arguments presented by Mr. Bryan this campaign that are going to work this astonishing change in the temper of the people toward him and toward his party? The campaign and the basis for an enlightened judgment upon its issues may be summed up in the question, Why should any republican vote for Mr. Bryan?"

SUMMONED BEFORE THE JUDGE ABOVE

Sim Townser, the negro convict who shot and killed Mr. Raulerson, woods rider for J. W. Ward, Jr., at Floral City, several weeks ago, who made his escape and since captured and placed in the Marion county jail for safe keeping, because of the intense feeling in Citrus county, died last night from the effects of exposure he underwent in making his escape after the murder. The world is well rid of the murderer and Citrus county of a heavy debt would have incurred in his trial. Mciver & McCamy interred the remains in the old cemetery today.

The contestants in the Marathon race, which was run in April 19th from Ashland to Boston, a distance of twenty-five miles, were notified this year the following terms: "Alcohol in any form is positively forbidden before, during or immediately after the race. It never does good and often does harm. Disregard of the foregoing shall be considered sufficient grounds for disqualification by the physicians in charge." In previous Marathon races there were men who had become fagged and resorted to alcohol and other stimulants and some of them fell unconscious soon after taking the stimulant. This year the six prominent Boston physicians who examined the one hundred and twenty men who entered—one hundred and three of whom started and seventy-five finished—stated that the condition of the men was better than that of preceding years. So far as can be learned no alcohol nor drug was used. No runner collapsed and the record of physical endurance in this, the greatest race in America, if not in the world, is a wonderful one. The twenty-five consecutive miles up hill and down were run in an average of six minutes each, which is only a minute and a half slower than the majority of mile runners on the best cinder tracks. Previous Marathon records were smashed because the men depended on long and careful training instead of stimulants.

The various departments of the United States government have sent word to the officials of the Alaska-Yukon-Exposition giving in detail the features of Uncle Sam's exhibit at the great Seattle Fair. It will be most comprehensive and unique display made by the government.

Woodmen meet this evening.

CHICAGO THE CHAMPION
Her Ball Swatters Won the Pennant of the National League
New York, Oct. 9.—The city of New York was baseball crazy yesterday. Elections, war rumors and everything else was forgotten and the one absorbing topic was the great game between the Giants and Cubs to decide a tie game played some time ago and also to decide the winner of the pennant.

Never before in the history of baseball have two teams tied for the pennant, never has it been necessary to determine the result of six months' baseball with one game.

The line-up was Christie Mathewson for the Giants and Mordecai Brown for the Cubs, both players being reserved for the mighty struggle. As early as supper many enthusiastic supporters of the home team went to the grounds in order to be sure of getting good seats.

The Score
was Chicago, 4; New York, 2.
It was great baseball, witnessed by the greatest of great baseball crowds—which would have been more than double could the fence have been stretched out into a circle of sufficient size to include all those who had clamored vainly for admittance. Spectators who knew the game, however, bitter they may feel over the tie decision which made yesterday's game compulsory, seem to concede now that the work of the Chicago team was practically perfect.

The Giants, well though they played, were outplayed. Chicago, fresh from rest, were superb in form. Brilliant, errorless fielding, snappy base running and opportune hitting in the third inning, which made effective in scores a double by Chase, won the game. New York could not hit at critical times. Mathewson, the great "Matty," favorite of the favorites, could not keep his invincible arm power and the effect of a moment's lapse in that third inning could not be overcome.

THAW WILL PROBABLY BE SET FREE MONDAY
White Plains, N. Y., Oct. 9.—After charging that Harry K. Thaw, who killed Stanford White in the summer of 1906 in the Madison Square Roof Garden, was still a dangerous paranoiac, and recently had threatened to kill himself, District Attorney Jerome withdrew from the case yesterday when Justice Mills refused to transfer the hearing on the question of Thaw's sanity from Westchester to New York county.

Thereupon Justice Mills declared that he would name two experts to examine Thaw as to his sanity between today and Saturday and settle the case upon their report on Monday.

MARTYR TO MODERN INDUSTRY
East St. Louis, Oct. 9.—To prevent his wife and eight children from becoming impoverished by his illness, August Figi cut the arteries in his wrists and died in the Henrietta hospital here. Almost the last thing he said to his wife was:

"It is no use wasting what little money we have in doctor bills and medicines for me. The children need it for winter clothes."

Figi was 49 years old. He worked in a paint factory grinding lead. This poisoned him and brought on a wasting disease.

TEN DAYS ON A RAFT

Mobile, Ala., Oct. 9.—Velo A. Sjolholm, the only survivor from the wreck of the schooner Beulah McCabe, which was lost in the recent West India hurricane, related yesterday the story of his horrible experience during ten days spent on a raft since the vessel went down.

Sjolholm's statement is as follows: "When we were about twenty miles off the Bahama Islands we began to experience the hurricane, the wind continuing to increase in velocity until it had reached a speed of seventy miles an hour. Up to this time the vessel had shown no sign of foundering and we were in strong hopes of weathering the gale, but suddenly a monster wave swamped us, throwing the vessel over on her beam ends and breaking her in two, after which everything went to the bottom. Johnson, another seaman and my self, succeeded in gathering together enough wreckage to make a raft on which we floated for ten days, enduring horrible privations. At that time Johnson died, but I was so weak that it was impossible for me to throw the dead body off the raft. Shortly after this I succeeded in drawing the attention of a passing steamer to my feeble signals and I was picked up and rescued."

AN UNFORTUNATE MOTHER
Allentown, Pa., Oct. 9.—Elmer the 3 months old son of Annie Coleman, was found dead in his little crib in the kitchen of the mother's home, smothered under the weight of a large bulldog.

The child's crib had been placed in the kitchen because the mother had considered that the warmest room. When she went to look at the child she was horrified to find the huge dog weighing nearly 50 pounds, stretched across the baby and the little body stiff and cold in death.

A sad tale is attached to the life of the mother of the child. Engaged to wed in Austria, her lover pretended to purchase two tickets for this country, went with her on board the steamer and then made some pretext to return to land, failing to return. She has been in this country nearly a year.

Don't be deceived by imitations of DeWitt's Carbolic Witch Hazel Salve. When you ask for DeWitt's be sure to get it. The name is stamped on every box. There is just one original. It is especially good for piles. We sell and recommend them. Sold by Anti-Monopoly Drugstore.
